13 March 1961

Memorandum:

To: File, Project 159

STATINTL From:

[Redacted]

STATINTL Subject: Phone call to [Redacted] 9 March 1961

STATINTL

During the phone call of 9 March, I brought to [Redacted] [Redacted] attention the fact that [Redacted] resection program (see memo dated 2 March) could not be modified in the manner desired. [Redacted] then said we should set that task aside until further notice. I informed [Redacted] in accordance with his request, of the estimated cost, [Redacted] for carrying out the intersection program.

10 Mar 61Estimated Running Time of
Programs on Project 159

<u>Task</u>	<u>Machine hours for one run</u>	<u>Total machine hours for testing</u>
1 & 6. Height program	0.1	1.0
2. Horizon exposure	5.0	40.0
3. B & L rectifier	.2	2.0
4. Hycon rectifier	.75	3.0
5. Intersection	delivered	
7. Compute shadow factor table	.20	2.0
Shadow factor for each mission	.25	2.0
8 & 9. Control extension	60.0	170.0
10. Terrestrial	4.0*	32.0
11. Spherical triangle	delivered	
12. Camera calibration	1.0*	8.0
13. Transformations	NA	NA

Added Tasks:

Correct Horizon Program	4.0
New Intersection Program	3.5
Modify Resection Program	2.0

* These are approximate estimates since flow charts for these programs have not been prepared.

Estimated programming and computer hours for the intersection problem.
